2. Click **OK**

Screenshare during broadcast

1. In Google+ hover over the left-hand side of the video call window, and a bar with various icons will appear.
2. Click  **Screenshare** on the left-hand side of your screen.
3. In the window that appears, choose the window you want to share.
4. Click **Start Screenshare**.

You can stop sharing your screen at any time by clicking **Screenshare** again.

Other screens you are working on won't be shared during the Hangout until you share your Desktop for that window.
