★ These focused and highly confidential sessions enable you to identify and examine items put up for discussion by members.

★ The format consists of intimate group meetings, a maximum of 9 in each group - single discipline so you'll be the only one there doing what you do - boardroom style setting so we can get down to the nitty gritty of your business.

★ Collaborative support to build knowledge, transfer skills and share experience

★ We take time out once a month and with a structured format, using the collective wisdom of the group, the Members help each other solve problems, prevent mistakes and maximise business potential.
