Your Profile Picture

Please provide a 80 word (max) mini-bio, ie you, NOT your business- please use 3rd person, paragraph layout, not bullet points. This is for the website and is your promotion.

Pennie is basically horse and dog mad. She used to draw pictures of horses all over her books at school - and even now the passion hasn't altered.

This now includes dogs too -in particular ex racing greyhounds. She recently wrote a book called "A Dog For All Seasons" which has been well received by her peers but was written for people that wanted to understand their dogs better

We're delighted that you'll be joining us on the Show and want to ensure you get the most from and enjoy your time with us. Please let us have 2 questions/points you'd like wrapped into our conversation. Maybe you've something to promote too? The show is light chatty conversation and this ensures any points important to you are covered. You will, of course, have the opportunity to introduce yourself too. Please add one of your fantastic BUSINESS TIPS.

Can you tell me more about Bowen and how it is included in your business? Many people have never heard of Bowen so it will be really helpful to be able to discuss it. Bowen is a hands of therapy and I am qualified and insured to treat humans, horses and dogs. It is a really versatile therapy as there are no side effects and any one of any age can receive treatments-I currently have a 90 year old human client and one of my equine clients was 36 and died last year of old age-which is a pretty awesome age for a horse

Why is wellbeing for the horses and dogs that you work with so important to you?

Please share your favourite piece of music/track. This can be because it's cheerful - you dance around the kitchen to it, or something more meaningful. Just the track Title and name of artiste is all we need.

Boys of Summer -Don Henley
